

# Volunteer: In Fiji on the Vinaka Build!

9th - 16th May 2020, Fiji

## Vinaka Build Information

NADI, FIJI

*Habitat for Humanity Fiji not only builds much-needed homes, but also gives the family a hand up to build themselves a better life.*

The number of people in Fiji living in substandard housing is on the rise, and already stands at 140,000. Over the next 15 years, there is an expected need of more than 30,000 new homes. Poverty continues to be a problem in Fiji. The local social services council are under the impression that around 60% of Fijian do not have decent housing. As housing prices are too high for many, families have no choice but to live in accommodation without running water, sanitation facilities, rubbish disposal facilities or electricity.
